DETAILED ACTION

Allowable Subject Matter

Claims 12-23, 25-38, 40-53 and 55-65 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claims 12-23 and 25-33, the prior art fails to teach a multi-beam x-ray generating device having a stationary field-emission cathode with a plurality of individually controllable electron-emitting pixels, wherein the plurality of pixels have a first and second different emission area as claimed in independent claim 12.

Regarding claims 34-38 and 40-42, the prior art fails to teach an x-ray generating device having a gate electrode with a plurality of different sized openings and a controlling unit for operating the openings to bring at least one beam of electrons as claimed in independent claim 34.

Regarding claims 43-53 and 55-56, the prior art fails to teach a method of scanning an object by providing a stationary field-emission cathode with a plurality of individually controllable electron-emitting pixels, wherein the plurality of pixels have a first and second different emission area as claimed in independent claim 43.

Regarding claims 57-65, the prior art fails to teach a method of scanning an object with x-rays by disposing a gate electrode with a plurality of openings having different sizes and manipulating the gate to bring at least one beam of electrons as claimed in independent claim 57.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2882

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
